

**LIBF, IOM Local centre**

**'Digital Crimes, Digital Criminals'**

**At the Claremont  
Wednesday 17 April 2019  
12pm Start  
Finish at 1.30pm**

Most crimes have a digital element to them, from a posting an abusive message on social media to a phishing attack on a corporation. Gaining an understanding of the capability, motivation and scope of the digital criminal is vital to assist organisations in improving and monitoring their security posture.

During the event we will see to demystify and better understand the types of crimes and criminals that operate on the Internet and see how the Economic Crime Unit investigate and obtain evidence to build a successful prosecution.

The presentation will be given by Colin Tansley, Managing Director, Intellect and Detective Superintendent Jed Bibby, Head of Economic and Cyber Crime IOMC
